### <Iteration/ Master> Test Plan

#### 1. Introduction

This document outlines the test plan for The Health and Fitness project, providing a comprehensive overview of objectives, scope, and approach to testing. The plan aims to ensure the software meets requirements, is defect-free, and performs well under expected conditions. It is intended for the project team, including testers, developers, and managers, and includes detailed descriptions of testing strategy, environment requirements, roles, and timelines.

### 2. Target Test Items

- Personal Workout Plans: Create, and manage plans.
- **Personal Workout Plan Details:** Add, delete. edit training metrics, swap position of exercise in personal plan.
- Exercise Library: Search and filter exercises.

#### 3. Environmental Needs

#### 3.1 Hardware Requirements

Desktop, laptop, computers: minimum 8 GB RAM, 2.5 GHz processor, 256 GB hard drive.

#### 3.2 Software in the Test Environment

The following base software elements are required in the test environment for this Test Plan.

| Software Name      | Purpose                     | Version       | Type and Other Notes |
|--------------------|-----------------------------|---------------|----------------------|
| Visual Studio Code | Website develop environment | 1.95.3        | Code Editor/Debugger |
| Firefox            |                             | 132.0.1       | Internet Browser     |
| Google Chrome      | Web browser for testing     | 131.0.6778.86 | Internet Browser     |
| Microsoft Edge     |                             | 131.0.2903.70 | Internet Browser     |
| Windows 11, 64 bit | Test environment platform   | 23H2 for x64  | Operating System     |

#### 3.3 Productivity and Support Tools

The following tools will be employed to support the test process for this *Test Plan*.

| Tool Category or Type        | Tool Brand Name | Vendor or In-house                                   | Version |
|------------------------------|-----------------|--|---------|
| Defect Tracking              | MS Excel 2010   | MS   | 2010    |
| Documentation                | Google docs     | Google   | Latest  |
| Source code management       | GitHub          | GitHub, Inc  | 3.15.0  |
| API testing                  | Postman         | Postman, Inc   | 11.21.0 |
| Unit and integration testing | Vitest          | Anthony Fu, Matías Capeletto and Vitest contributors | 2.1.5   |

#### 4. Responsibilities, Staffing, and Training Needs

#### 4.1 People and Roles

This table shows the staffing assumptions for the test effort.

| The Health and Fitness                      | Version: 1.0    |
|---|-----------------|
| <iteration master=""> Test Plan</iteration> | Date: 4/12/2024 |
| TP  |                 |

| Human Resources           |  |   |  |
|---------------------------|--|---|--|
| Role                      | Minimum Resources<br>Recommended         | Specific Responsibilities or Comment  |  |
|                           | (number of full-time roles<br>allocated) |   |  |
| Test Manager              | 1 full-time (Vũ Thái Thiện)              | Provides management oversight.  |  |
|                           |  | Responsibilities include:   |  |
|                           |  | Planning and organizing test activities.  |  |
|                           |  | Defining testing scope and objectives.  |  |
|                           |  | Acquiring resources (tools, personnel).   |  |
|                           |  | <ul> <li>Advocating for testing priorities and quality<br/>standards.</li> </ul>  |  |
|                           |  | Reporting to stakeholders.  |  |
|                           |  | Evaluating the overall effectiveness of the test effort.  |  |
| Tester                    | 2 full-time (Vũ Thái Thiện,              | Implements and executes the tests.  |  |
|                           | Văn Diệp Bảo Duy)                        | Responsibilities include:   |  |
|                           |  | Developing functional test cases for<br>features like user registration, login, fitness<br>tracking, and recommendations.     |  |
|                           |  | <ul> <li>Executing test cases and suites across<br/>different platforms.</li> </ul>   |  |
|                           |  | Logging results and analyzing failures.   |  |
|                           |  | <ul> <li>Identifying and reporting defects,<br/>particularly in usability, performance, and<br/>security features.</li> </ul> |  |
|                           |  | Documenting incidents and validating fixes.   |  |
| Test System Administrator | 1 full-time (Văn Diệp Bảo<br>Duy)        | Ensures the test environment and assets are managed and maintained.   |  |
|                           |  | Responsibilities include:   |  |
|                           |  | <ul> <li>Setting up and maintaining<br/>hardware/software configurations<br/>(Windows, macOS, browsers, etc.).</li> </ul>     |  |
|                           |  | <ul> <li>Managing test management systems and<br/>automation tools.</li> </ul>  |  |
|                           |  | Supporting team members with access issues.   |  |
|                           |  | Recovering and troubleshooting test lab environments.   |  |
